Join us at this year's virtual Stepping Stones to Excellence in Wound Care for a day filled with insights focused on the increasingly complex world of wound care. This conference will equip participants with strategies that enhance their practice and optimize patient care in treating wounds and skin disorders.

Objectives

At the conclusion of this activity, learners will be able to:

- Identify challenges associated with healing complex wounds.
- Discuss best practices for the care of burn wounds.
- Appropriately assess pediatric skin and select appropriate products in management of pediatric dermatological care needs.
- Describe the basics of enteric fistula management.
- Recognize and treat complex dermatologic conditions.
- Discuss the role of physical therapy in managing functional limitations that contribute to wound formation and healing.
