The DAISY Award
FOR EXTRAORDINARY NURSES
HONORING NURSES INTERNATIONALLY
IN MEMORY OF J. PATRICK BARNES

The DAISY (Diseases Attacking the Immune System) Award is an international recognition program that honors and celebrates the skillful, compassionate care nurses provide every day. The DAISY Foundation was established by the family of J. Patrick Barnes after he died from complications of the auto-immune disease ITP in 1999. During his hospitalization, they deeply appreciated the care and compassion shown to Patrick and his entire family. When he died, they felt compelled to say "thank you" to nurses in a very public way. Please say thank you by sharing your story of how a nurse made a difference you will never forget!

I would like to thank my nurse (name): Ann Courtney from the 3E Unit.

Please describe a specific situation or story that demonstrates how this nurse made a meaningful difference in your care.

Ann is such a pleasant nurse. She took the time to explain everything.
Making sure I knew the blood pressure numbers, who was coming in
for what. Kept me advised of procedures, and that I understood them.
She checked in often and never once showed anything but a good
nature (sometimes that is hard to come by)! She is one of the
best nurses I've had in any of my stays in any hospital!

I agree that my description or story, and any personal health information I disclose, will be shared in public presentations with the nominated nurse, staff members at Augusta Health, and the public.

Thank you for taking the time to nominate an extraordinary nurse for this award! We'd love to include you in the celebration if your nurse is selected for a DAISY Award. Please tell us a little about yourself.

I have been in Augusta health on several occasions. And I can honestly say this visit was the hardest because of my illness on top of a terrible depression. Anne made everything a little better everyday with just pure love for my care.

She went well above her job description, all of the crying she always on point. She boosted my morale. She made me everyday to tell me if I was a strong woman. And I could and would get better. One day I want the best but was trying to feel human. I driving to just comb my hair (my hair is very long) Anne said in to my room, and said Oh that comb will ruin ~~your~~ get through all that hair. She leaves come back with brushes. Thank you meant the world to me.

Another occasion I had been really sick on my stomach and it was past ordering time, Anne went to the cafe and got me some food. Just like a mother would do for her child, for Anne is a very compassionate, caring, devoted, loving RN. Augusta health has a SUPERSTAR on their staff. Thanks Anne, it will never forget our talks!

Anne has a presence and a reassurance about her. She has the "can do & will do" attitude. Upon entering the room the rapportive & knowledge she demonstrated diffused or helped to diffuse our anxieties. We appreciated her candid explanations at discharge. Anne's focus was extraordinary & guided from room to room upon called and always returned to Joe & his particular needs. Kudos to a Super Star!!

Please share your story of why your nurse is so special, providing as much detail as possible. See reverse side for sample nomination.

Our brother Milford

Maggy was admitted to Augusta Health on April 3. We had tried for several weeks to go to the doctor and get checked out. He was a loner, had lived by himself and was really set in his ways. We knew that whoever would be the "lucky one" to care for him would have to be a very

special person. Thanks to prayers and hoping for the best along came Anne. The first morning he refused to take medication or co-operate in any way. I had to make a trip to convince him that everyone was trying to help him. Anne was wonderful. She became his friend and he quickly responded. She teased him that she was known as the nurse with the cold hands. He laughed and agreed.

Unfortunately, our brother died a few days later on April 7th. He died at home, where he wanted to be. We are all still grieving his death, but find comfort in the fact that his last few days were filled with love and compassion from Dr. Lynch and Anne. That's why I would like to

Nominate Anne, or at least let her know how very much we appreciated her during this time. Thank you.
