## NPDP Project Submission Form

- Quality or Performance Improvement (PI)
- Evidence Based Practice (EBP)
- Care Delivery Innovation

<p>NPDP projects requires initial meeting with Unit Director to discuss project that adds value to the unit or hospital.                  Unit based projects are approved by Director, Hospital based projects are approved by the CNO.                  Project must be completed and presented to staff in person before NPDP submission date.</p>	
Title:	Medical unit Reference Book
Submitted By/Clinician Level:	Matthew Mullin, RN CL:III
Team Members:	Medical Unit Council
Purpose and Rationale:	The medical unit Reference book was developed to improve knowledge and efficiency of the medical unit staff. This in turn, add more bedside hours, and more efficient and accurate care for our patients.
Practice Change Anticipated:	Medical Staff will utilize this book to ensure tasks and skills are performed correctly and completely. It is also a precepting Resource.
Implementation Strategies:	Available to all staff on medical at all time. Education to be given about what it can provide and usability.
Evaluation:	The reference book should decrease the frequency of questions to the charge nurse as well as improve confidence to the staff.
<p><small>If you've already done a literature review please attach this information.                  Include project timeline.</small></p>
